SUBJECT: Adult High School Accountability Grades

The Office of School Accountability requests final placement of the adult high schools into grade categories pursuant to 511 IAC 6.3. Because 511 IAC 6.3-1-5(c) requires that “adult high school grades must be issued during the normal fall release time frame” regardless of the timeline for other schools with accountability grades, the grades for the adult high schools are being presented now rather than waiting for the grades for the other schools to be completed.

Preliminary grades were released to the adult high schools on August 8, 2018. Each school had the ability to request an audit of their results between August 28, 2018 and September 12, 2016. Two audits were received and adjudicated, and final grades were sent to schools that had requested an audit on September 13, 2018.

The Department recommends the final placement of the adult high schools into the following grade categories:
